

**CONDITIONED WATER  
MAKES A CLEAR DIFFERENCE  
THROUGHOUT YOUR HOME.**

*Life is a little harder without conditioned water.* It's evident in the spot-free dishes, the brighter and softer clothes and a shower stall without water spots. You can feel it as shampoo rinses out completely, leaving your hair shiny and more manageable. And you'll

save money on soaps and detergents while eliminating scale buildup that could harm your water-using appliances. In all these areas and more, our Select Water Conditioner makes your home and lifestyle a little more comfortable.

## **This sophisticated system is easily programmed to match your family's water needs.**

Five-cycle regeneration maximizes the system's efficiency. Demand-initiated regeneration saves you money on salt and water because the conditioner only regenerates when needed, based on your family's actual water usage. Plus, with the internal bypass, you'll always have continuous water during the backwash and regeneration cycles. External bypass valve is also included for ease of service.

Our three-button key pad with digital display makes programming simple. And there's no need to worry about power outages because the electronic system maintains your program settings.

easy and versatile

- The 1" flow-through valve meets NSF/ANSI 44 requirements. It's ideal for larger homes because it supplies more water with less pressure drop.
- The system's composite material is durable and corrosion-resistant.
- Cycles are fully adjustable so settings are customized for your needs.
- Designed with a minimum number of moving parts means easy maintenance.
- The sturdy polyethylene brine tank holds up to 350 lbs. (159 kg) of salt. And the reliable brine safety valve incorporates built-in safeguards that prevent brine tank overflow.
- Highly efficient resin that is designed to be long-lasting.
- Conditioning tank is NSF-certified and made from non-corrosive, reinforced fiberglass.

The DER Series has been tested and certified by the WQA to NSF/ANSI 44 for specific performance claims as verified and substantiated by the test data. See data sheet for specific claims.
